2025 Affiliate Marketer's Master Swipe File

Copy & Paste Commissions

The Web's #1 Annual File For Affiliate Marketers!

by Jim Daniels
Making a Living Online Since 1996

Welcome to the 2025 Edition of my Affiliate Marketer's Master Swipe File...

This PDF report contains the top 50 performing affiliate products and services I've been promoting over the last two years online.

As my long-time readers (some since the early 1990's) can attest, I promote only the cream of the crop. I research every affiliate product and its publisher before promoting. I get review copies even if that means buying them myself, so I know the product works.

If it does not live up to the sales letter, it does not make my annual list. So rest assured, you can be confident when you promote these products.

While these are ALL great products, the **best of the best** also have a 

seal.

To get that seal, the product must fit three criteria.

1. I use the product or service personally.
2. The sales letter converts extremely well with high earnings per click.
3. The refund rate is among the lowest.

Note: Before you can promote offers on JVZoo or WarriorPlus, you will need approval from each vendor. You can request approval from the link I've included with each listing.

If you do not have an affiliate sales record, mention that Jim Daniels sent you and that you will never use spam or other unethical methods, and you may get approval anyway. Oh, and as a buyer of this report, I will approve you to promote all of my products!

If you run into approval issues, start with the bonus file in this year's pack containing affiliate programs that do not require approval.

OK, on with the list... **simply click on any product name below, to be taken to the affiliate signup page.** You can preview the product sales page there too. For more info on each vendor, click on the name of the vendor to be taken to their profile.

(Products are listed from newest to oldest.)

To your affiliate marketing success,

Jim Daniels

P.S. Also included with this package is a folder of .txt files containing all the promotional emails I created to promote these products. As you choose products from the list below to promote, open the folder called “promos” and search for the product name to locate the matching promos.
